

Internet Dial-Up Service Agreement

This agreement between the Customer (as named below) and Blastpoint™ (hereafter referred to as the Company), is an agreement by the Company to provide ongoing services as outlined below for a setup fee of 15.00 dollars(US\$) plus a monthly payment of 15.00 dollars (US\$) for credit card customers, billed the first of each month of service; or in 3, 6 or 12 month advanced payments for those wishing to pay by personal check. The Company reserves the right to increase or decrease the monthly payment, but will notify the Customer in writing at least 30 days in advance of any payment increase. The Company also reserves the right to terminate service at any time and return to the Customer a prorated amount for services not rendered.

If, for any reason, the Company is unable to continue service during this period, the Company agrees to return to the Customer a prorated amount based on the payment made for this service. However, if the Customer wishes to discontinue service for any reason, the remaining prorated funds are forfeited to the Company. The Customer understands that an interruption of service that is out of the control of the Company does not constitute an inability to provide service, not does an interruption of service for a reasonable amount of time.

If a payment is late by more than 15 days of the due date, the Company will consider this a request by the Customer to terminate the agreement. Credit card accounts authorize the billing of the above amount on the first of each month. Partial months will be billed on a prorated basis. All accounts include one e-mail account and up to 1MB online storage. Additional e-mail accounts and storage are available on request.
